GARDEN IRRIGATION SYSTEMS and INSECT KILLERS''

SISTEMI PER IRRIGAZIONE DA GIARDINO ed ANTI-INSETTO

.

....

## Brands

## Intellectual Property

- 10 patents relating to extendable and lightweight hoses
- 4 patents relating to the mosquito / electric devices field
- 4 utility patents
- 34 BRANDS
- 12 registered aesthetic models
- 12 PMC with 16 applications and related formulations registered with the Ministry of Health

## Manufacturing

## Certifications

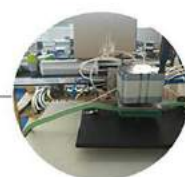

CALIFORNIA  
PROPOSITION 65

## QUALITY CONTROL

**MANIACS FOR QUALITY**  
Our hoses are manufactured, tested and packed in our factory in Valsamoggia (BO - Italia).

We obtained the most important **certifications** of quality and we **test** all the production directly on the line. Machineries are fully **automatized** and equipped with integrated control system to guarantee production stability.

## Display Solutions

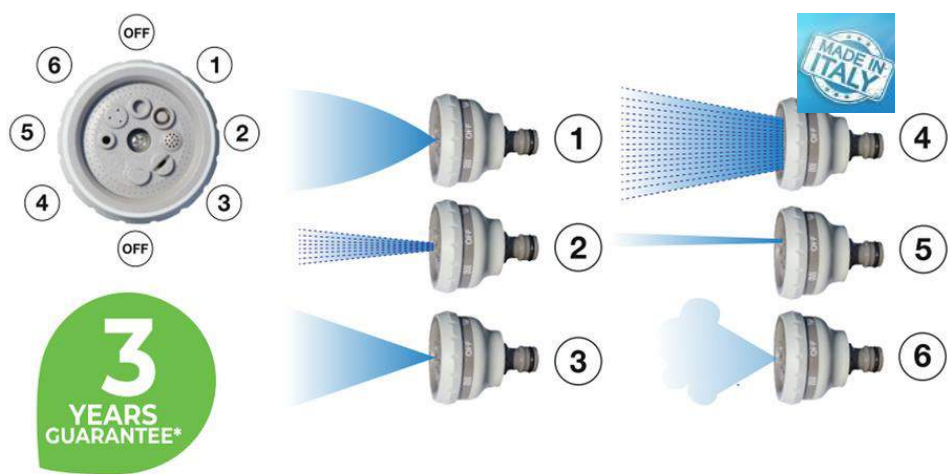

MAGIC SOFT Idroeasy 30 Metri

NEW MATERIAL THAT GUARANTEES USE FOR DRINKING WATER + 2 QUICK CONNECTORS (cod art 343)+ 6 FUNCTIONS NOZZLE . THE LIGHT STRUCTURE OF MAGIC SOFT LARGE, ANTI KINK&ANTI TORSION, GUARANTEES A 3X EXTENSION. RESISTANT&FLEXIBLE AT HIGH AND LOW TEMPERATURES. MADE IN ITALY. [PATENTED LINK VIDEO](#)

Details

- 5/8"
- Extension of about 3X
- Anti crease & anti twist
- Operating pressure: 3-4 BAR
- Bursting pressure: 12 BAR
- Internal diameter: 11,5/16 mm
- Outside diameter: 18.5 mm
- Water flow: 1800 l / h
- New material that guarantees the transport of drinking water

Cod. Articolo	Mt Ext.	Pcs per Box
2847	15	10
2858	22.5	7
2877	30	7

Armadillo Superlight 5/8"

2 QUICK CONNECTORS INCLUDED(cod art 343LG). COMPATIBLE WITH ALL QUICK CONNECTORS IN THE MARKET (CLABER, GARDENA). SUPERLIGHT HOSE, ANTI KINK&ANTI TORSION, NEW MATERIAL THAT GUARANTEES USE FOR DRINKING WATER. MADE IN ITALY. PATENTED. 100% RECYCLABLE HOSE IN PLASTIC.  
[LINK VIDEO](#)

Details

- LARGE 17,5 mm - 5/8 "
- Anti-kink & Anti-torsion
  - Working pressure 0-4 BAR
  - Burst pressure: over 12 BAR
  - Inner diameter: 12.5 / 16 mm
  - Water flow: max 1800 l / h
  - Compatible with all quick couplings
  - New material that guarantees the transport of drinking water

*New material that guarantees for transport of potable water!*

**ANTI KINK & ANTI TORSION STRUCTURE**

**3X LIGHTER THAN TRADITIONAL HOSES**

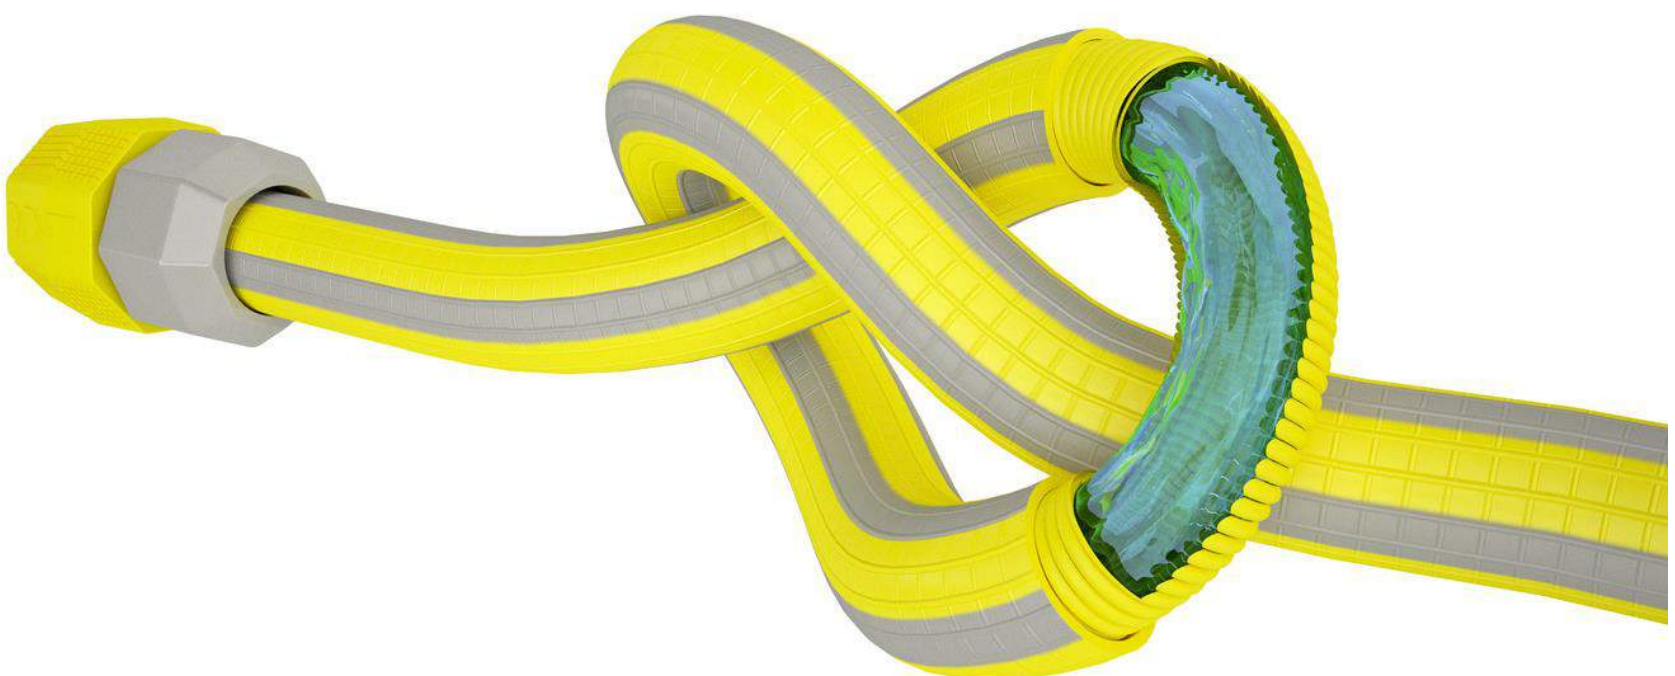

**FLEXIBLE EVEN AT LOW TEMPERATURES**

Non-toxic in the transport of fluids. The manufacture of product is in technopolymer, compatible with end-of-life recycling. **WE USE ONLY 100% VIRGIN MATERIAL**

- **ZERO plastic waste**
- **The only 100% recyclable hose in the market**
- **Production scrap reused to make other products**
- **Reduced transport cost = less Co2 emission**

## Wi-fi Remote Control Irrigation System

When the sprinkler timer is connected to WiFi, you can simply program it and manage your watering schedule via App (Android, iOS) from anytime and anywhere. No need to worry about watering plants when you go out.

**SMART HOME - IRRIGATION SYSTEM**

WiFi tap programmer, range up to 4 programmers. Plug duplicator. Fully programmable via IOS and ANDROID APP.

Connection Water Tap	3/4" & 1"
Connection Water Hose	3/4"
Irrigation Duration	1 – 59 min
Manual Mode	1 min – 12 h
Timed Mode	0.5 – 8 bar
Working water pressure	5 l/min – 35 l/min
Working water flow	AA / AAA Batteries
Power	up to 12 months
Running time	Battery level indicator in App

Art. 3560

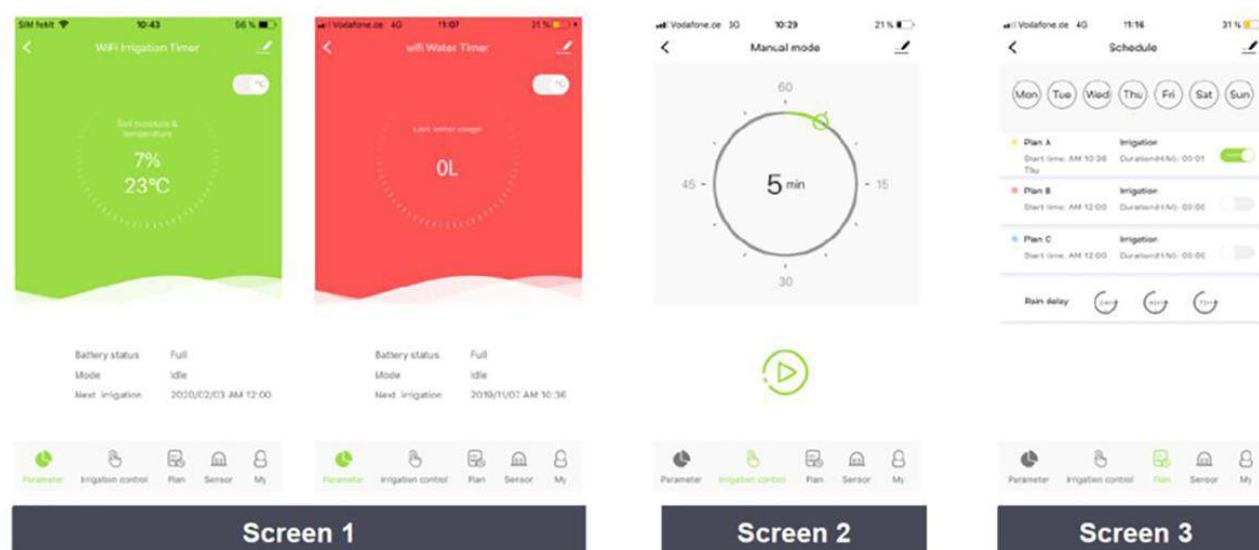

### HOW IT WORKS?

## HOW THE APP WORKS?

## HOW THE APP WORKS?

- Once the Wi-Fi is properly connected you can program and command irrigation from any part of the World!
- The irrigation can be started by pressing the appropriate button of the App or by programming the same for time slots
- Up to 3 customizable programs
- Customizable app with your own name and different colors
- Optional sensors measure soil moisture threshold and temperature for optimal irrigation.
- Available accessories to safeguard the dripping of water.

# Fittings

**COD 342.**

**QUICK CONNECTOR OF 1/2"**

Universal quickconnector, anti-release safety system.  
Made in Italy.  
Materials with very high resistance to heat, frost, UV rays.  
PATENTED

**COD .345**

**QUICK CONNECTOR OF 3/4"**

Universal quickconnector, anti-release safety system.  
Made in Italy.  
Materials with very high resistance to heat, frost, UV rays.

**QUICK CONNECTOR OF 1/2" WITH ACQUASTOP**

Universal quickconnector, anti-release safety system.  
Made in Italy.  
Materials with very high resistance to heat, frost, UV rays.  
PATENTED

**COD. 350**

**QUICK CONNECTOR OF 1/2" 5/8" & 3/4"**

Covered in soft rubber.  
Universal quickconnector, anti-release safety system.  
Made in Italy.  
Materials with very high resistance to heat, frost, UV rays.  
PATENTED

**COD. 355**

**QUICK CONNECTOR OF 1/2" 5/8" & 3/4" WITH ACQUASTOP**

Covered in soft rubber.  
Universal quickconnector, anti-release safety system.  
Made in Italy.  
Materials with very high resistance to heat, frost, UV rays.  
PATENTED

# Tap Connectors & Joints

**COD: 306**

**TAP CONNECTOR OF 3/4"**

Allows safe and easy connection of the hose to the tap.  
Grey colour with high resistance EPDM seals.

**COD 316**

**TAP CONNECTOR ALL in ONE from 1" with REDUCTIONS of 3/4" and 1/2"**

Grey colour with high resistance EPDM seals.

**COD: 323**

**3 WAYS CONNECTOR : T-REX PLUS MODEL**

Quick connectors included, not removable

**COD: 385**

**REPAIR JOINT OF 1/2" 5/8" & 3/4"**

Useful to repair a damaged hose, or to join two different hoses with the same diameter.

**COD: 370**

**JOINT FOR QUICK CONNECTORS**

With universal connection.

**COD: 375**

**3 WAYS CONNECTORS**

For quick connectors

# Sandokan®

## SANDOKAN RANGE 2021

**L'ULTIMA EVOLUZIONE  
PER LA LOTTA ALLE ZANZARE!**

**INSECT KILLER DEVICES MADE IN ITALY**

Sandokan®

Insect Killers Devices Aspiration System

Insect Killer with **aspiration system**, conceived to lower the mosquitoes infestation  
Powerful and silent  
Without the use of chemical insecticides  
Low consumption of energy

**COD. 7352**

**MOSQUIT-ALL Suction for indoor and out door use**

Insects are attracted from led lights, the fan suck them in, provoking their dehydration and quick death. The fan protection mesh preserves butterflies, fireflies and other useful insects from entering the suction area. The collecting recipient prevents the insects from coming out when the fan is off. Usable in combination with Sandokan attractive which increases the effectiveness against mosquitoes. Powerful, silent, ideal for indoor / outdoor (coverage 50 sqm). Designed and patented by Sandokan. The product conforms to EC and RoHS standards

**Energy Consumption**

Using it for 8 months, 24h/24h, the cost is only € 5.18, € 26 less than a device that does not use Sandokan technologies.

**COD. 7353**

**MOSQUIT-OVER Suction electroinsecticide for indoor and outdoor use. MADE IN ITALY**

Insects are attracted from led lights, the fan suck them in, provoking their dehydration and quick death. The fan protection mesh preserves butterflies, fireflies and other useful insects from entering the suction area. The collecting recipient prevents the insects from coming out when the fan is off. Usable in combination with Sandokan attractive which increases the effectiveness against mosquitoes. Powerful, silent, ideal for indoor / outdoor (coverage 200 sqm). Designed and patented by Sandokan. The product conforms to EC and RoHS standards

**Energy Consumption**

Using it for 8 months, 24h/24h, the cost is only 6.90€, 36€ less than a device that does not use Sandokan technologies.

**COD. 7353**

**MOSQUITO ZAN Ecological device for the capture of bloodsucking insects**

Electrical product, universal and flexible. The contrast between the fair string and the dark back together with the delivering of attractive substances are succesful in attracting insects. Then the inner fan captures the insects. Operates with 230-110 / 12 volt power supply. UVA LED technology, consumption 4 Watt. Ideal for outdoor (coverage 1000 square meters), It is a weatherproof device, suitable for outdoor areas. UVA LED LIGHT  
Space for the location of attractive  
Box measures: 26x26x h 34 cm  
SHOKPROOF AND SELF-ESTINGUISHING RESIN

**Energy Consumption**

Using it for 8 months, 24h/24h, the cost is only € 15.55, 70 € less than a device that does not use Sandokan technologies.

COD. 7395

Suction electrodiffusor for outdoor applications

Insects are attracted by LED lights, they are sucked in by the fan and die quickly because of dehydration. The mesh protecting the fan is purposely calibrated in order to prevent butterflies, fire flies and other useful insects from entering the suction area. It is an ecological device to capture blood-sucking insects. The device attracts insects thanks to the contrast between the light and dark parts and the emission of attractants. The device is weather resistant and therefore is ideal for outdoor use as well. The container's closure prevents insects from escaping when the fan is switched off. It can be used in combination with Sandokan attractant in order to increase its effectiveness against mosquitoes. Designed and patented by Sandokan, the product complies with EC and RoHS standards. **Power supply with 230 V - 12 Vdc adaptor**

Energy Consumption

Using it for 8 months, 24h/24h, the cost is only € 5.18, € 26 less than a device that does not use Sandokan technologies.

**LED-ZAN ITALY PLUG" ELECTROINSECTICIDE**

Sandokan Led Zan is a Made in Italy Insect Killer with specific LED light to capture mosquitoes and dangerous insects, without the use of insecticides, repellents, spirals or candles.

Equipped with an integrated electrification grid: avant-garde aesthetics and optimal capture area.

Polycarbonate grids, self-extinguishing and unbreakable material.

Product conforming to CE high protection standards.

**Details**

- It is not a chemical insecticide
- LED light with high brightness and low energy consumption(< 1w)
- Calibrated to not release smoke and/or flames during capture and to not make any noise
- Perfect for indoor and outdoor spaces (can be either hanged or just placed on a surface)
- Easy cleaning with air jet
- Made in Italy – Patented by Sandokan

**COD. I7340**

**Sandokan Cub-Zan is a Made in Italy**

Insect Killer with specific LED light to capture mosquitoes and dangerous insects, without the use of insecticides, repellents, spirals or candles.

With USB plug, can also be used with Power Bank.

Equipped with a transparent grid and integrated electrification: avant-garde aesthetics and optimal capture area.

Polycarbonate grids, self-extinguishing and unbreakable material.

**Details**

- It is not a chemical insecticide
- LED light with high brightness and low energy consumption (1w)
- Universal USB charger + EUROplug adaptor included
- Perfect for indoor and outdoor spaces (can be either hanged or just placed on a surface)
- Easy cleaning with air jet
- Made in Italy – Patented by Sandokan

**COD. 7345**

**Sandokan Bi-Zan**

Made in Italy Insect Killer with specific LED light to capture mosquitoes and dangerous insects, without the use of insecticides, repellents, spirals or candles.

With USB plug, can also be used with **Power Bank**.

Equipped with a transparent grid with integrated electrification: avant-garde aesthetics and optimal capture area.

Polycarbonate grids, self-extinguishing and unbreakable material.

**Details**

- It is not a chemical insecticide
- LED light with high brightness and low energy consumption (2w)
- Universal USB charger + EUROplug adaptor included
- Perfect for indoor and outdoor spaces  
(can be either hanged or just placed on a surface)
- Easy cleaning with air jet
- Made in Italy – Patented by Sandokan

COD. I7390

Sandokan Tri-Zan

Made in Italy Insect Killer with specific LED light to capture mosquitoes and dangerous insects, without the use of insecticides, repellents, spirals or candles.  
With USB plug, can also be used with Power Bank.  
Equipped with a transparent grid with integrated electrification: avant-garde aesthetics and optimal capture area.  
Polycarbonate grids, self-extinguishing and unbreakable material.

Specification

Electronic Insect Killer WITH USB TYPE A CAN ALSO BE USED WITH POWER BANK, PLUG ADAPTER INCLUDING EUROPLUG PLUG. 1 ATTRACTANT INCLUDED  
Electric discharge capture  
LED technology, consumption 3 Watts  
Ideal for indoors / outdoors (coverage 50 m2)  
Product compliant with CE and RoHS standards.

Details

- It is not a chemical insecticide
- LED light with high brightness and low energy consumption (3w)
- Universal USB charger + EUROplug adaptor included
- Perfect for indoor and outdoor spaces (can be either hanged or just placed on a surface)
- Easy cleaning with air jet
- Made in Italy – Patented by Sandokan

24 pcs

COD. I7071

The Made in Italy Sandokan Swatter is made with an innovative conductive plastic material. It generates electric discharges for a quick and safe elimination of annoying and dangerous insects such as mosquitoes, flies, horseflies, wasps, bumblebees, sandflies and spiders.  
The plastic materials used in the mesh allows a perfect conduction of electric discharges without the need to use the old wire mesh. Discharges are lethal only to insects and harmless to children and adults.

Details

- Made in Italy
- Innovative conductive plastic material of electrical discharges.
- Triple conductive layers made of plastic.
- Large, flattening surface.
- Light and handy
- Ecological
- Designed and patented by Sandokan

REPELLENT LINE FOR OUTDOOR

COD. P2847

This innovative pump replaces the old shoulder pumps. Simply pour the active ingredient into the tank and connect the dispenser to a garden hose. You can perform every treatment for your garden in a third of the time compared to traditional shoulder pumps. Thanks to the jet that reaches up to 5 meters and the 3 adjustable nozzles, you can reach every corner without fatigue and without getting dirty. This device is suitable for outdoor use, do not use inside.

Details

- Extremely easy to use
- No manual pump
- Just 1 minute to cover a surface of 100sqm2
- A unique product on the market
- Allows to mix active principles of different blends from 0.5% to 2%.
- Patented by Sandokan

[LINK VIDEO](#)

It can be connected directly to your garden hose. The first 30 seconds of dispensing are necessary for the calibration of the mixture, it is recommended to start treatment after 30 seconds of dispensing. The dispenser dispenses about 1 liter of mixture every 30 seconds, so it is necessary to proceed quickly with the spraying in order to treat the surface without stopping. The treatment times shown are indicative and may vary with water pressure, nozzle regulation and active substance density. The mixing dispenser is transparent and allows the level of the active ingredient to be verified during dispensing.

Thanks to the jet that reaches up to 5 meters and the 3 adjustable nozzles, you can reach every corner of the garden without effort and without getting dirty.
