Connection Of U-Pvc Pipe

Montaggio Del Tubo In Pvc-U

1. Pipe glueing area has to be marked according to solvent cement socket connection length. Preliminary check of pipe and fitting socket connection is suggested before glueing.

1. L'area di incollaggio del tubo deve essere marcata sul tubo in accordo con la profondità bicchiere del raccordo. Prima di incollare si suggerisce la verifica dell'accoppiamento dimensionale tra tubo e bicchiere del raccordo

2. Clean the fitting surface to be glued by liquid cleaner, to remove dust, oil and other impurities.

2. Pulire le parti interne del raccordo da incollare con detergente liquido per rimuovere le impurità superficiali.

3. On both of two pipe parts, glueing area have to be rubbing with sandpaper. After rubbing process, glueing areas have to be cleaned by liquid cleaner and to be dry.

3. Carteggiare la zona esterna di saldatura del tubo e la sua estremità interna, pulire il tubo con idoneo detergente liquido ed asciugare bene.

4. Solvent Cement has to be applied on two glueing areas with a clean brush, longitudinal way. In case of pouring excess glue should be taken back into the glue can.

4. La colla deve essere applicata sulle due parti da incollare con idoneo pennello, in modo longitudinale. La colla in eccesso deve essere rimessa nel barattolo.

5. After correct application of glue, the two parts must be pushed each other with no stop, straight and very quickly. Keep parts in this position for a short time, till they start connect one each other.

5. Spingere tubo e raccordo contemporaneamente senza rotazioni e trattenendolo seguendo il corretto allineamento: tenerli in questa posizione per un breve periodo finchè le parti non iniziano ad aderire tra loro.

6. Immediately remove any excess of glue with a paper towel or suitable cloth. Stand by time before pressure application: 60 min per bar to be applied.

6. Rimuovere immediatamente ogni fuoriscita di colla con carta assorbente od idoneo panno. Tempo di attesa prima di pressurizzare: 60 min per ogni bar da applicare
